

**W**e warmly invite researchers, students, and all those interested in the study of worked hard animal materials to participate in the **17th Worked Bone Research Group Meeting**, which will be held in **May 2028 Toruń**, at the **Faculty of History, Nicolaus Copernicus University in Toruń!**

**17<sup>th</sup> | WBRG**  
**M E E T I N G**  
**— TORUŃ, POLAND —**  
**— 2028 —**

The conference will provide a forum for presenting and discussing research on bone, antler, ivory, tooth, shell, and other osseous materials from prehistory to the Middle Ages. We welcome contributions concerning raw material procurement, technology, craft traditions, typology, experimental archaeology, wear analysis, object biographies, symbolic and cognitive aspects of bone working, as well as broader questions related to material culture and human-animal interactions.

**Join us in Toruń for an inspiring meeting devoted to the past, present, and future of worked bone research!**
